REGISTER NOW!

Please join Trapeze Networks and FedResults for an exclusive roundtable discussion featuring Paul Kurtz -- former executive on the Homeland Security Council and White House National Security Council under Presidents Clinton and Bush. You will have the opportunity to discuss with our panel the requirements for transforming your business and the important role that Wireless Networks will play in that change.

Learn from the experts:

- How to plan for next-generation wireless LAN today
- Important applications enabled by Wi-Fi that will help transform your organization
- How to meet security requirements in a wireless environment

Key note speaker: Paul Kurtz

Paul Kurtz is a Partner and COO of Good Harbor and a recognized cyber security and homeland security expert. He served in senior positions on the White House's National Security and Homeland Security Councils under Presidents Clinton and Bush. Kurtz most recently was special assistant to the President and senior director for critical infrastructure protection on the White House's Homeland Security Council (HSC), where he was responsible for both physical and cyber security.

Additional Guest Speakers:

Dan Simone, Founder and Chief Technical Officer, Trapeze Networks
