Manufacturer Description: Catbird is the industry leader in comprehensive security for virtualized and physical environments, and winner of the 2007 VARBusiness Technology Innovator Award for Virtualization, the Windows IT Pro Best of Tech·Ed 2008 IT Pro Editors Choice Award for Security and a Best of Show Finalist at VMworld 2008. Via Catbird V-Security and the Catbird V-Agent virtual appliance, Catbird is the only company delivering best-practice security for Hypervisor, Guest VMs and Policy/Regulatory Security Compliance. As companies migrate mainstream servers and desktops to virtual environments, uncertainty over security and compliance can impact deployment plans. Catbird's protection eliminates these worries and keeps virtualization plans on track. Founded in 2000 by Internet pioneer Ron Lachman, the company's in-the-cloud architecture protects thousands of customer systems and networks who rely on Catbird and its partners to protect their valuable IT assets from external and internal threats. The private company is based in Silicon Valley, and is currently recruiting new partners and resellers.

GSA Schedule Offering:

Special Item No. 132-33 Perpetual Software Licenses
Special Item No. 132-34 Maintenance of Software
Special Item No. 132-52 Electronic Commerce
