Manufacturer Description: Librato® is a leader in data center resource management software that enables companies to reduce operating and capital expenses by dramatically increasing utilization rates. The company's core technology delivers fine-grained monitoring and control of resource usage by applications without any application or operating system modifications. This allows Librato to deliver easy-to-deploy solutions for server consolidation, job priority management, capacity planning and chargeback.

GSA Schedule Offering:

Special Item No. 132-32 Term Software Licenses
