

## PRODUCT SOLUTION DESCRIPTION

The Mi-Forms System is a robust product suite enabling workflow, design, deployment, filling, and management of custom forms for web, Tablet PC, digital pen, and Windows Mobile devices.

The **Mi-Forms Designer** enables easy design of custom forms for a variety of applications even by non-technical staff.

The **Mi-Forms Server** allows the enterprise to control the flow of data, manage accounts, implement predefined workflow, and deliver solution updates to users. Mi-Forms Rich Client provides store-and-forward capability and highly accurate handwriting recognition.

Mi-Co's **Mi-Forms on Demand** solution integrates the Anoto Digital Pen Functionality with Mi-Forms technology to provide greater flexibility in collecting time-critical, accurate data.
