

## PRODUCT SOLUTION DESCRIPTION

Rising Edge offers an array of Data Recorders (DR) to support the capture, playback, and analysis of high-speed electronic signals. Their standard DR range from a 2-drive lightweight portable unit to an 8-drive rack mount system. All Rising Edge recorders offer the following features:

- Wideband Recording
- Long Record Times
- Real Time Playback
- Removable Drive Modules
- Choice of I/O Modules
- User-Friendly GUI
- FTP Offline Capability
- Rugged, Ground-Mobile Operation

Companion products: Recorder portability kit, Signal archive management systems, Delay line processors, Signal level converters, Software utilities

## CAPABILITIES

Rising Edge has knowledge & experience in:

- System Architecture & Design
- Requirements Analyses & Definition
- Real-Time OS & Embedded Software
- Digital & Analog Circuits
- FPGAs/PLDs
- Graphical & Command Line User Interfaces
- Device Drivers
- PCB Layout, Fab, Assy & Test
- Manufacturing, Maintenance & Support
- Installation & Training

## CUSTOMERS

Federal Agencies:

- NSA
- CIA
- NRO
- Navy

- Also applications at
  - Air Force
  - Army
  - DIA

Manufacturing

541712—R&D in Physical, Engineering and  
Biotechnology

Over 500 fielded products

GSA Schedule: GS-03F-0094W

## CORPORATE ELEVATOR PITCH

Rising Edge Technologies develops high performance data capture systems to fulfill the specialized needs of those users requiring Digital Recording technologies. These systems range from small, man-portable wide-band data recorders to large, multi-terabyte archival storage systems. They combine custom engineering skills with proven commercial technologies to deliver innovative, practical solutions to complex technical challenges.

## KEY WORDS TO LISTEN FOR!

- Data Acquisition
- Data Recorder
- SIGINT data
- Collection and reproduction
- Archival and retrieval
- Translation and conversion

Rising Edge products and services are proudly represented to the U. S. federal government through
