

Global Medical Center Partners with FedResults to expand in the Federal Government Market

June 23, 2010 Herndon, VA: FedResults, Inc the premier provider of Government business development services and Global Medical Center, Inc (GMC), today announced a strategic partnership utilizing FedResults' TeamINFO Services. This partnership enables GMC to quickly expand and capture a share of federal government marketplace with an experienced mentor well known to the government sector. "GMC is uniquely positioned to meet the growing demand for 'just in time' pre-deployment reviews to most any part of the world. Their close proximity to Dulles airport and the contractor community has played well for the short notice traveler heading to the many non-standard locations our government contractors supports. From security details to linguistics personnel to oversight assignments hundreds are deployed weekly to areas that require special physical & or medical attention reviews. The world can be a scary place and taking a few precautions before hand makes good and necessary sense for the traveler" said Bob Dinkel, President of FedResults. "Global travel in addition to being very time consuming is physically demanding and for those that need to be at the top of their game, GMC's check-up service is worth the time and money'. Additionally, GMC is actively supporting the Law Enforcement sector with pre-employment and annual check-ups with exams. This segment continues to grow as job related drug testing's a requirement of continued employment in most all law enforcement and security environments. "We estimate that government contractors deploy thousands of individuals annually. Adding FedResults as a partner allows us to address the government market while keeping our existing staff focused on near term business opportunities" said Dr Rajesh Mehra, Medical Director at GMC. "We have built a successful medical practice for the community and recognize that many of same needs and requirements exist in the government pre-deployment sector. Having the know-how to tap the federal contractor marketplace and where to focus your resources is where FedResults shines'. Our center supports a wide variety of physical exams from basic stress tests to full endurance requirements.

About FedResults, Inc.

FedResults offers companies a comprehensive approach for increasing their sales of commercial based technologies and services to federal agencies. By combining its experience, knowledge of the federal procurement process with its acumen in creating business and sales strategies, and the backing of venture capitalists at Monumental Venture Partners (www.mvpfunds.com), the company has built substantial credentials as a cost-effective alternative for successful business development and sales. About Global Medical Center

Global Medical Center, Inc is a leading provider of a full range of ambulatory, diagnostic and treatment services for illness or injury, including laboratory, x-ray, trauma care, minor surgery and casting. GMC renders extensive medical services that range from regular patient visits to injury evaluation and treatment to pre-deployment checks-ups and physicals. We strongly believe that we are one of the few local non-hospital facilities offering such a comprehensive range of care. With a full complement of bilingual trained personnel (Doctors, Nurses, Medical Assistants, Lab Technicians and office staff) that speak Spanish, Hindi, Urdu, Punjabi, French, Farsi, Chinese, Tagalog, Arabic as well as others, GMC is the one-stop medical center for business needs. Additional info on GMC can be found on the Web at www.globalmedical.us or by calling 1-703-291-1892.
